RITA Students Recognizing February, Black History Month 2023

Celebrating Black History Month in February. RITA Students dedicate time to participate in important class discussions and caring engagement with each other.

Black History Month was created to focus attention on the contributions of African Americans to the United States. It honors all Black people from all periods of U.S. history, from the enslaved people first brought over from Africa in the early 17th century to African Americans living in the US today.
